TFI **TEXTILE FAIRS
INDIA 2025**
Integrating the textile value chain

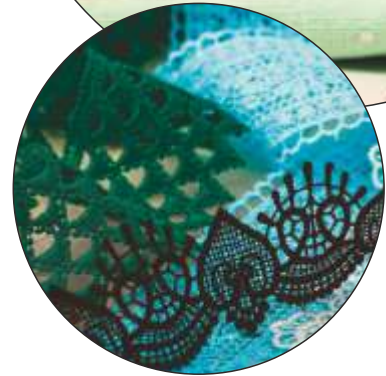

Tex-India is a niche event that brings together manufacturers and suppliers of knitted and woven apparel fabrics, trims, embellishments, and allied services from India and overseas to showcase their innovative collections for the coming seasons.

Tex-India attracts buyers that comprise garment manufacturers and brands, contract apparel manufacturers, and job work contractors from the knitting and woven sectors of the industry. Tex-India is held in the major garmenting hubs of Ludhiana, Tirupur and Kolkata.

The event is renowned for highlighting a vast range of knitted, woven, and printed fabrics that find application in men's, women's, and kid's wear. Buyers will be keenly looking forward to sourcing these products and getting acquainted with innovative textile applications emerging in global markets.

If you are in the fabric manufacturing sector, a process house of knitted and woven fabrics, or an importer and supplier of fabrics, then Tex-India is the appropriate platform to showcase your range and manufacturing capabilities. The same applies if you are a manufacturer or supplier of innovative accessories that find application in apparel manufacturing.
